

GRUNDFOS PUMP

Series UP Circulators

Providing quiet performance for open and closed domestic hot water systems

► Highlights

"Get Hot, Not Bothered"

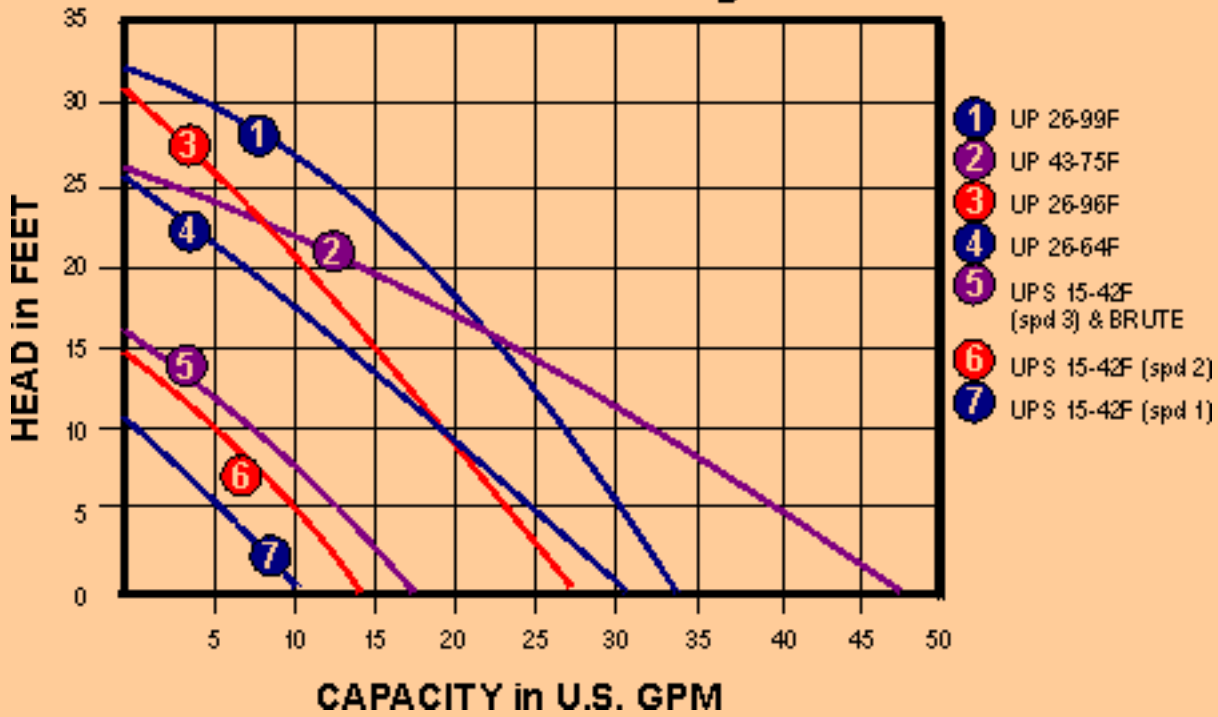

Our Hot Water Recirculation systems save you time, money, and energy, by circulating hot water through your household plumbing without wasting it down the drain. Grundfos has a recirculation pump that is perfect for your new home!

► Features & Benefits

- Built-in motor protection for long life
- Stainless steel construction for corrosion resistance
- Multiple fittings for a variety of applications
- 4-pole motor for low energy consumption
- Whisper-quiet operation for sound sensitive installations
- The **New Brute II** (UP 15-42) has 50% more starting torque for dependable starts in the worst conditions.
